Job Vacancy: Java Developer

Localisation: Dublin // Salary: Based on experience

Our client, a leading provider of solutions for the transport sectors is looking for an experienced Java Developer, familiar with different java technologies and who have the ability and willingness to work on all aspects of their product set.

Depending on your experience, you will be involved in areas from product design through to development, integration, test and delivery. We are looking for a motivated team player, who enjoys working in a dynamic environment with leading edge technology.

You will be working as an integral part of the product development team on all technical aspects of company suite of applications and working with an integrated team of business analysts, product managers and QA.

Key Requirements:

- We are looking for developers with solid experience using Java/J2EE technologies including many of the following:
- Strong Java skills, with 5+ years experience with enterprise Java in a commercial environment.
- Technical experience should include good knowledge of a number of the following technologies: JSP, GWT, Hibernate, EJB3, Eclipse, ANT, JBOSS. While having experience in these technologies is an advantage, note that full training will be provided as required for the right candidates.
- Experience of the following an advantage: SQL Server 2005/2008, Agile development Methodologies, Javascript, AJAX, CSS
- You should have experience of the full product development lifecycle.

Education:

- Degree level qualification in a computer or computer related discipline.

If this interest you, and you want to make it to the next level in your career within an exciting company based in Central Dublin, apply in our web page www.itgconex.ie or call on +353 1 6874010, text on +353 0864161120 or email info@itgconex.ie
