

COGNIZANT IS LOOKING FOR GRADUATES

to start as junior developer (Valladolid, Spain)

Content Management and Portals (CMP) business unit is part of Cognizant's Digital Engagement Practice (DEP) and offers a great opportunity to work with customers that are market leaders across industries. We have a network of around 3600+ professionals across the globe, with deep expertise and experience on the latest technologies in the field and we have delivered hundreds of projects for 250+ customers across the world.

What is our vision on the digital revolution?

Cognizant recognizes that Digital is changing the game of doing business for major clients, and has supported its customer's journey with Digital Transformation since it became known in the market. Our [Code Halos](#) thought leadership is resounding very well with our client base and beyond. With the arrival of new standards like HTML5 and the latest products in eCommerce and Portals, this journey is continued in an exciting way. We continue to support our customers with state of the art consultancy, implementations, upgrades, environment migrations and new ways of making their Portals and Content Management investments productive. Become part of this journey as a junior developer, with a keen interest to excel in one of the strongest growing fields in the information industry.

Cognizant's Content Management and Portals.

Cognizant is delivering its Content, Management and Portals capability to key industry players in Europe. Our group consists of experts in the field of consultancy, technology and project management.

From an implementation and support perspective, we currently serve the following domains and product platforms:

- Portal: Liferay, Backbase, IBM Websphere, Oracle WCC
- Web Content Management: Sitecore, Adobe AEM/CQ, Oracle WCC, SDL Tridion, HP Autonomy Teamsite, Drupal, and Episerver
- eCommerce: IBM Websphere Commerce, Oracle ATG Commerce, SAP Hybris
- Enterprise Search: MS FAST, HP Autonomy IDOL, IBM Omnifind, Oracle Endeca, Google, and Apache Solr
- Enterprise Content Management: EMC Documentum, OpenText ECM suite, IBM FileNet P8 and CM, Oracle WCC, Alfresco

In Europe we are present in UK, the Netherlands, France, Switzerland, Germany and Belgium. We chose Valladolid as location to build our delivery & consulting competences. We are building up a whole new team to strengthen our Sitecore capabilities and are therefore looking for recent graduates to join us as junior developers.

KEEP CHALLENGING™

Your role as junior developer

In the beginning the focus will be on training. After that you will become part of our European consulting or project delivery team, providing a full range of IT services as Sitecore specialist to clients across multiple industry sectors. You might be assigned to a client engagement outside of Spain

You will:

- be part of a team, working with onshore and offshore teams of Cognizant and of our clients
- Help deliver our expertise on the ground
- Work on business critical web applications, eCommerce and social marketing projects
- have attention for quality, maintainability, performance and testing

All of the above needs to be done with the ambition to obtain the best possible result for our client. With that you are not afraid to point attention points and/or propose improvements along the way!

As a graduate you will receive training in the following areas:

- Basic technical training on Microsoft ASP.NET web application development / ASP.NET web forms / MVC with C# / VB.NET / Javascript / JQuery / CSS, if required
- Programming with Content, Management and Portal tools (Sitecore)
- Client specific standards and guidelines, if required

Do you have:

- Bachelor's or Master's degree, preferably in Computer Science, Computer or Industrial Engineering, Business & IT, Management Information Systems or other related majors
- Max 1 year of relevant work after graduation
- Programming skills in Java, .Net, C++ or similar
- Strong problem solving and analytical skills
- Ability to work collaboratively with global project teams
- Good communication skills: strong English is required as you will have to communicate in English on a daily basis!
- Flexibility to work from any location in Europe

We offer:

- The opportunity to be part of a young and fast growing organization
- Extensive training
- An open, international and multicultural environment
- Access to further training through our Cognizant Academy to ensure professional development and career path
- The opportunity to work for large multinational organizations (also in other European locations)

We look forward to hearing from you!

Send your English CV to Cristina Costillas, graduate recruitment manager in Spain
