

# Full Stack Developer

## WORKING TOGETHER

We look for bright people, flexible, willing to take on challenges and succeed

Do you want to be part of the **GMV development team** and participate in projects with the latest technology?

The selected candidate will participate in the development of high performance, scalable, fault-tolerant back-ends and highly usable UIs. He will take part in the whole development life-cycle with specification, design, implementation, testing and customer support.

### Requirements:

- A good academic record
- Good level of English
- Technical knowledge:
  - ✓ Back-end (Linux, Apache, MySQL, PHP/Python)
  - ✓ Front-end (HTML5/CSS3, JavaScript)
- Valuable knowledge:
  - ✓ JavaScript frameworks (Angular, React, etc.)
  - ✓ Microservices architectures (API RESTful web etc.)
  - ✓ Cloud Computing (Amazon Web Services)

Si te interesa comenzar tu carrera profesional con nosotros envía tu Curriculum Vitae y una copia de tu expediente académico con la referencia del nombre de la beca. (mcarpallo.ext@gmv.com). Más información en <https://www.gmv.com/es/Empleo/>
