SELLplify

Are you looking for a new, individual and interesting challenge? We can help you out!

Sellplify is an innovative software startup in Germany. We develop b2b sales and business intelligence solutions that make the work of promotion agencies and promoters more efficient and easier. To support our team we are looking for the next possible date:

IT development intern (m/f)
In Münster, Germany

Your Tasks:

- Programming of the next IT innovations
- Enhancement of our mobile app
- Enhancement of our backend software
- Working with APIs to connect with other systems

Your Profile:

- You have very good knowledge of Ionic-Framework 2 or Angular and RxJS
- You are familiar with JavaScript
- Ideally you have some knowledge of Symfony framework for PHP
- You have at least 8 weeks time to achieve something big in the development of Sellplify
- You would like to work in Münster (Germany) or Barcelona (Spain)

We can offer you:

- You want to contribute your own ideas? We are a young startup with flat hierarchies and we are always happy about every new idea.
- You want to take over responsibility? With us you can even design your own project according to your ideas.
- You would like to learn something directly from practice? Our founding team consists partly of a mathematician with a doctorate. He will support you throughout the whole time with advice and assistance.
- You want to write your thesis in a company? With us you can write both your Bachelor's and Master's thesis.
- You want to sleep longer or leave early? We have flexible working hours.

Have we caught your interest? We look forward to getting to know you and are looking forward to receiving your application documents! Please send them to jobs@sellplify.com.
