Summary of the Activity

Fundación Bases proposes a ludic-technological activity for young people in the EU, consisting of the development of a Makeathon during an entire weekend, with the aim that young people from different training fields can live, work and compete together in order for them to know, develop and help divulging emerging technologies and bring together the academic and professional worlds together.

Dates

March 29 to 31, 2019.

The activity will begin at 17:00 on Friday, March 29, 2019

The activity end at 17:00 on Sunday, March 31, 2019

Location

Llano Alto Hostel - Béjar (Salamanca) - Spain

This hostel has capacity for 125 people in accommodation only or full board. In addition there are several hotel establishments in the vicinity that allow the accommodation of up to 100 additional people. It is intended that all participants stay in the hostel, and external people, as sponsors or partners may stay in other establishments.

Number of participants:

The Llano Alto Hostel has been booked for 125 people, of whom 100 will correspond to the participants in the activity, and 25 to tutors and mentors who will accompany the participants throughout the event.

Inscription

A specific website has been created to offer information of the event, allow the registration and payment of fees of the participants, encourage the formation of teams and inform of all the considerations to participate (transport, material to carry, etc.).

The web page for inscription is

www.makeathoniot.com

At the bottom of "home" you will find "Registration" – "Pre-inscription".

Foundation Bases will cover all the expenses of the participants of the activity (materials, transport, accommodation and food), except for a small fee to guarantee the attendance of the registered, consisting of 20€ for those who register individually and 10€ for those who register through collaborating groups.

Awards

The three best performing teams with the best results will be rewarded. The jury will be integrated by staff of the organization, professionals (sponsors and collaborators) and representatives from academy (professors from technology and engineering faculties).

- The winning team will receive a prize of 1,500 euros, which will be paid in cash, in materials or in a travel bag to attend a similar activity for an equivalent value.
- The second team will receive a prize of 1000 euros, which will be paid in cash, in materials or in a travel bag to attend a similar activity for an equivalent value.
- The third team will be awarded with 500 euros, which will be paid in cash, in materials or in a travel bag to attend a similar activity for an equivalent value.

In addition, there will be various prizes to exhaust the budget of sponsorships, consisting of material, bonuses or cash, which will reward the most original works, the team with the greatest dedication, etc.
